Invitation to the first international congress of the European Society for Biological Lasertherapy and Acupuncture

(Juli 7-9, 2006, University clinic Göttingen)

Dear colleagues,

We would like to invite you today to the first international congress of the European Society for Biological Lasertherapy and Acupuncture at the university clinic in Göttingen from Juli 7th to 9th. It is the first congress about these topics where it worked out to bring international known specialists from the areas of basic research and clinical application together. So we will achieve a productive and constructive exchange of experience in the exciting area of lasertherapy methods.

We are proud to tell you that the russian basic researcher in the area of cell biology, Mrs. **Prof. Tiina Karu** from the Institute on Laser and Informatic Technologies of Russian Acad. Sci., will take part in the congress for giving a lecture. Mrs. Prof. Karu is the most popular basic researcher of the last years with more than hundreds of publications, many books and international entrances.

Furthermore we could invite **Dr. Gasparyan** from the Laser Research Center in Helsinki, Finland for a lecture. Dr. Gasparyan did a lot of research in the area of the intravascular laser blood irradiation and is internationally known because of his many publications.

His wife, **Mrs. Prof. Anu Mäkelä** from Helsinki, will talk about these topics as well.

We could also engage **Prof. Dr. Frank Bahr**, President of the German Academy of Acupuncture and Auriculomedicine in Munich, one of the most popular and well-known specialists for acupuncture with a big international reputation in the area of laser acupuncture and the frequency techniques and a lot of important publications and books.

Dr. Manfred Reininger, another internationally well-known specialist for laser frequencies and blockage therapy from Austria, will also take part in the congress as a speaker.

Mrs. Dr. Beate Strittmatter, world- famous specialist for auriculomedicine and blockage therapy and leader of education for ear acupuncture of the German Academy of Acupuncture and Auriculomedicine in Munich, will report on this congress, too.

In addition to this we invited **Mrs. Rita Klowersa**, leader of education for body acupuncture of the same academy, for a lecture and a workshop.

Dr. Peter Aluani, board member of the Austrian Society for Controlled Acupuncture, will impart his excellent knowledge about laserneedle acupuncture and intravascular laser blood irradiation.

Many other well-known speakers from various special fields will tell you about their knowledges and experiences in their lectures and workshops. You can find all this in the enclosed congress programme.

The first day of the congress will take place in the city hall in Lauenförde/ Beverungen.

The technical development of the new devices for laserneedle acupuncture and laser blood irradiation was performed in Lauenförde/Niedersachsen with a huge financial support of the government of Niedersachsen in the area of research and development.

Friday afternoon, we are going to offer a diverse summer programme in the wonderful mountainous Weser region: You can choose between an adventure canoe tour, a bike-tour or a cultural programme. In the evening you will enjoy a romantic tour with the historical Weser steamboat with buffets and live music as the highlight of the first day.

The following two days of the congress will take place in the huge lecture rooms of the university clinic in Göttingen. Beside the scientific lectures various speakers will offer extensive workshops with a consolidation of knowledges.

The direction of research and clinical development should be scheduled together with you at this congress so that we achieve a high efficiency with these new methods and successful treatments of the patients in the end.

Please book your participation on the enclosed registration form and fax it to the EGLA office. Use the early bird rebate till May 31th for a reduced congress fee(180 €).

For room reservations or other questions please call the EGLA office in Lauenförde (+49 (0) 5273/ 36778-18).

I hope that this congress will achieve a high scientific standard and become a nice final event before the summer break 2006.

The congress will be certified by the medical chamber of Hannover, Niedersachsen.

With kind and collegial regards

Dr. med. Dipl. chem. M. Weber
Präsident der EGLA
